Acoustical Canopy

150 sabins

NRC .75

Custom Design

**INDUSTRIOUS - coworking space**  
Chicago, Illinois

The Hatch system offers the ability to create a variety of designs and varying depths to provide a highly individualized look and feel for any experience. In spite of their truly unique design capabilities, and complex look, this system is installed easily and allows for ceiling accessibility if required. Hatch is the perfect complement to any space and comes in a variety of attractive shapes and configurations, including.... rounded rectangles and squares ranging from 4'x4' to 9'x12' and beyond. Additionally, there is no trim that appears like other systems, its seamless thanks to innovative design construction and cutting.
